This summary provides important information regarding OntheNet's Business Naked DSL service. Full terms and conditions are available on our website www.onthenet.com.au/policies

Information About the Service

Business Naked DSL provides Internet access via ADSL Broadband technology delivered over a copper line without an active telephone service. The service is available on selected exchanges in Queensland only. This product is not required to be bundled with any other OntheNet product.

All orders are subject to a Service Qualification to confirm the premises can support the service. A suitable copper line must be available between the customer premises and the local telephone exchange. All speeds quoted are maximum theoretical speeds. OntheNet does not guarantee that the maximum speeds stated will be attainable in all cases.

The service is delivered to the network boundary point (Main Distribution Frame or first socket) at the customer premises. Internal cabling, or any cabling beyond the network boundary point, that is required to deliver the service to the customer premises, is the customer's responsibility and the cost of such cabling and or/works are independent of any OntheNet fees and charges.

A monthly access fee is charged, which includes a monthly data allocation. If the included data allocation is exceeded an excess usage fee will apply. A single email mailbox is provided with every service. Up to 4 additional mailboxes can be provided upon request. The service includes a single static IP address however additional IP addressing may be provided if technically justified. After hours Technical Support is available via a pager number.

Customers may request a plan change at any time which will take effect from the first of the next calendar month. A new contract term is applicable to plan changes. The new contract end date will be either 24 months from the effective date of the plan change, or, the original contract end date, whichever is later.

Minimum Term - The minimum contract term is 24 months.

Hardware - Compatible ADSL hardware is required to use the service. Hardware is available for purchase from OntheNet as an optional extra.

Information About Pricing

Monthly Charges - The monthly fee is determined by the plan selected and is billed in advance each month. If more than the included monthly data allocation is used an excess usage fee of \$5.00/GB will apply.
