Note:

1. If the geographic region for a number is not the region the customer is located in the customer will have an Out of Area number. An Out of Area number may not be able to be ported to another service provider in the future. Calls to or from the number will be charged as if the customer is located in the region identified by the number and not the region the customer is actually located in.
2. Inbound calls charges apply to all calls received by a 1300 or 1800 number as per the Business Phone PLUS call rates.
3. 1300 and 1800 numbers are virtual numbers that are routed to a single destination number (answering point) therefore you must have another number to route inbound calls to. If the destination number is not a number that is hosted by OntheNet outbound call charges will also apply.
