

Critical Information Summary

- VStrata Virtual Private Servers

This summary provides important information regarding OntheNet's VStrata Virtual Private Servers (VPS) services. Full terms and conditions are available on our website www.vstrata.com.au/policies

Information About the Service

OntheNet's VStrata VPS services comprise secure, dedicated virtual private servers and related services. A portion of physical server resources is allocated to the customer dependent on the plan selected. Each VStrata VPS has standard inclusions according to the plan selected and there are various additional optional services. This product is not required to be bundled with any other OntheNet product.

A VStrata VPS is initially configured by OntheNet with:

- RAM and SAN storage as per the plan selected.
- Offsite backup.
- High Availability (N+1 redundancy for the physical server environment).
- Default security measures.
- One usable public IP address, with additional addressing available on request if technically justified and approved by OntheNet.
- A clean install of the selected operating system.

The following optional extras are also available, some of which incur additional costs

- Internet data.
- Additional storage.
- Application licences.
- Private Links interface.
- VStrata Managed Firewall.
- Secure remote access to the customer's VStrata VPS (not if service includes Private Links interface).
- Consultancy Services (VConsult).

The VStrata VPS service includes:

- Reactive monitoring 24 hours a day, 7 days a week (excludes Private Links only VPS). In the event that system unavailability is detected an SMS alert will be sent to the customer's Technical Representative.
- Access to after hours Technical Support.
- Usage statistics and bandwidth utilisation graphs.
- A Service Level Agreement (SLA).

The customer is responsible for:

- Managing and ensuring the security and integrity of their VStrata VPS.
- Maintenance and management of any services, processes and/or applications.
- Implementing and managing any additional backup requirements.
- Adhering to any and all licensing requirements for any software installed.

A monthly access fee is charged for the virtual private server together with any applicable monthly fees for the operating system licence and/or optional extras. See overleaf for pricing information.

Minimum Term - The minimum contract term for each VPS is 12 months. The optional extras each have a minimum one month contract term. Plan changes or service modifications incur a new contract term. The new contract end date will be either 12 months from the date of the plan change, or the original contract end date, whichever is later. Plan changes or modifications may also incur a once off fee.

Hardware - No hardware is required in order to use the service.

Information About Pricing

Monthly Charges - The monthly fee for a VStrata VPS service is determined by the plan selected for each VPS and any optional extras. The tables below show the options for each VPS and Internet data plan. To view pricing information for the optional extras visit the VStrata website www.vstrata.com.au. Please contact OntheNet for a quote if you have requirements for a higher spec server or larger Internet data allocation. Monthly fees are billed in advance each month.

Establishment Fee - An establishment fee is applicable for VStrata VPS services as shown in the VStrata VPS Plans table below. An establishment fee is also applicable for some application licences and optional extras, as outlined on the order form.
